PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience building and shipping production web applications with React.js, Next.js, Node.js, and NestJS. Delivered food-tech, construction-management, and beauty-service platforms with role-based access control, JWT authentication, and Core Web Vitals optimization. Author of a published open-source npm package; Employee of the Month (March 2024). Comfortable owning features end-to-end, from database schema and REST APIs to deployment.

Available to join immediately.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, Python

Frontend: React.js, Next.js, Redux, HTML5, CSS3, SCSS, Tailwind CSS, MUI, Bootstrap

Backend: Node.js, NestJS, Express.js, Flask, Sequelize, TypeORM, SQLAlchemy, Prisma, REST APIs, GraphQL, WebSockets

Databases: MongoDB, PostgreSQL, MySQL

Auth & Security: JWT, OAuth 2.0, RBAC, ABAC

Payments: Stripe, Cashfree, Razorpay

Testing: Jest, Unit Testing, E2E Testing

Tools & DevOps: Git, GitHub, GitLab, Postman, Docker (basics), AWS (EC2, S3), cPanel, Deployment

PROFESSIONAL EXPERIENCE

Software Engineer — Webskitters Technology Solutions Pvt. Ltd. Aug 2023 – Oct 2026

Kolkata, India

- Built and maintained Next.js, Node.js, and MongoDB apps, owning data flow from frontend to REST APIs.
- Cut page load time 40% on production sites with code splitting and server-side rendering (SSR).
- Reviewed peers' code and supported 2 junior developers in delivering shared project tasks.
- Delivered sprint goals on schedule in Agile/Scrum with designers, product managers, and QA.
- Food ordering: shipped ordering, delivery tracking, and restaurant management (Next.js, Node.js, MongoDB).
- Construction management: built a real-time, role-based project dashboard (NestJS, Next.js, MongoDB, EC2).
- Used WebSockets and polling together in the construction dashboard to deliver real-time updates.
- Beauty services: built multi-role booking, scheduling, and reporting (NestJS, Next.js, PostgreSQL, RDS, ECS).
- Wrote Jest test cases for the beauty platform's pricing and calculation logic.
- Covered organisation and personal projects with E2E testing.
- Integrated Stripe payments in the construction and beauty platforms.
- Trucker Social: built the marketplace module with GraphQL filtered queries and add/update mutations.

Software Developer — Kheci Aug 2021 – Dec 2022

Remote

- Rebuilt the legacy single-page app as a React frontend, Node/Express API, and MySQL database.
- Designed and built REST APIs for authentication, business logic, and secure frontend-to-backend data flow.
- Owned frontend, backend, database setup, server configuration, and cPanel production deployments end to end.
- Managed MySQL and MongoDB databases through schema design, query optimization, and data migrations.

OPEN SOURCE & PROJECTS

- **Simple Date Time (npm package, open source):** Published a lightweight date/time manipulation package on npmjs.com.
- **MERN Store List App:** Built a MERN + Redux store-listing manager with JWT authentication and REST APIs.
- **Instant Markdown Previewer:** Built a React.js markdown editor with a real-time live preview.
- **Freelance project :** Built user, order, payment (Cashfree), and subscription flows (Next.js, PostgreSQL, Sequelize).
- **Java personal project:** Built a to-do application with Java J2EE (on GitHub).
- **Flask personal project:** Built an API backend in Flask to learn how NestJS concepts carry over (on GitHub).
- **Personal projects:** Integrated Razorpay payments; wrote Dockerfiles and ran containers to learn Docker.
- **GitHub README Templates:** reusable open-source profile README templates used by the developer community.

EDUCATION, CERTIFICATIONS & AWARDS

B.B.A — Subharti University

D.C.A (Diploma in Computer Application) — Kalimpong Himalayan Edu-Care Institution

Certifications: rishu.dev/certification**, Award:** Employee of the Month, March 2024 — Webskitters
